## Put city on future map

Young people are needed to dream up Melbourne's future.

Futurelab is a workshop for Gen Yers to have their say on the City of Melbourne's Future Melbourne plan for 2020.

Half of the 80 places at the Docklands event on May 17-18 are yet to be filled and organisers want people who represent the city's diverse community.

During the workshop, participants will explore the city as a canvas for sustainability projects. Apply online at [www.futuremelbourne.com.au/futurelab](http://www.futuremelbourne.com.au/futurelab) by 5pm on May 8.
